Being the most career focused UK degree

UPSTART

Nepal's Biggest College Seed Funding Event

Seed Funding Up to 1 Crore

PCPS Upstart is Nepal's biggest college seed funding event, exclusively designed for PCPS College students. With seed funding upto 1 Crore, this initiative empowers young innovators to turn their ideas into real businesses. Beyond financial support, participants gain access to mentorship from industry experts, networking opportunities with investors, and guidance to scale their ventures. PCPS Upstart not only fuels entrepreneurship on campus but also fosters a culture of creativity, problem-solving, and practical learning, giving students the tools and resources to make a meaningful impact locally and globally.

Being the most career focused UK degree

\$250

GLOBAL CERTIFICATION OPPORTUNITY

Earn a globally recognized professional certification of your choice worth \$250, fully supported to help you build industry-ready skills and strengthen your career opportunities

PCPS College enables students to enhance their skills through professional certifications of their choice for \$250 per student, sponsored by PCPS College. PCPS College supports access to globally recognized certification pathways that build strong, industry-relevant skills. This helps students gain practical expertise, strengthen their professional profile, and improve employability in competitive global markets. These global certifications open wider access to international opportunities and career pathways.

PCPSOPPORTUNITY

PCPS Opportunity is a strategic initiative by PCPS College designed to actively bridge the gap between education and employability. It serves as a centralized platform that connects students, faculty, and the broader college community with real-world career pathways and industry engagement. As part of PCPS Opportunity we focus on

Online Job Portal

The PCPS Online Job Portal is a dedicated platform that directly connects students with internships, part-time roles, and full-time job opportunities. It acts as a continuous bridge between academia and career.

Career Fair

The PCPS Career Fair is a high-impact recruitment and networking event that brings leading companies, organizations, and industry professionals together, helping students confidently engage with employers and experience real hiring processes.

Guest Lectures

Guest lectures at PCPS are conducted by experienced industry leaders and professionals who share real-world insights, trends, and practical knowledge. These sessions go beyond textbooks, helping students understand current industry expectations, challenges, and evolving career landscapes.

Non Credit Courses(Business)

- AI in Marketing
- Marketing Automation tools

- Generative AI / LLM Engineering
- AI Agents & Autonomous System
- AWS Cloud Certification
- Development Security Operation Training
- Ethical hacking
- Data Structures & Algorithms
- System Design
- IOT and Robotics

INTO THE INDUSTRY

Pcps Into the Industry:

PCPS Into the Industry is a unique learning approach that goes beyond traditional industry visits by immersing students in real business environments. It exposes them to actual challenges, success stories, and opportunities within industries, enabling hands-on understanding rather than passive observation. This approach builds practical insight, problem-solving ability, and true workplace readiness.

Jiri Business Edition: PCPS College Business Management students visited Jiri, often called the “Switzerland of Nepal” to closely study the traditional Churpi business. The experience focused on understanding real business operations, local challenges, and opportunities, while exploring ways to empathize with the business context and apply digital transformation strategies to modernize it.

Realthon: An experiential learning initiative where students engage in real-world problem-solving through hands-on challenges. It pushes learners to work on actual business or social issues, combining research, innovation, and execution to develop practical solutions with real impact.

Market Exposure: Students and entrepreneurs at PCPS College are provided with an incredible opportunity to showcase their businesses at Nepal’s leading shopping destinations such as Labim Mall, helping them gain real market exposure and connect with customers.

Our Collaboration

PCPS College partners with leading academic institutions and industry pioneers worldwide to foster innovation, enrich learning, and expand global opportunities for our students.

Tech Learning Partner

Code Himalaya

CodeHimalaya is a digital transformation consultancy and software development company based in Lalitpur, Nepal. Founded in 2021 by a group of tech enthusiasts, the company builds and delivers innovative IT solutions to organizations of all sizes ranging from custom enterprise software to mobile apps, AI integration, system modernization, and SaaS platforms.

Strategic Collaboration

NASIT

The Nepal Association for Software and IT Services Companies (NAS-IT) is the leading nonprofit organization representing Nepal's software and IT services sector. PCPS has partnered with NASIT with a focus on placement, workforce development, entrepreneurship, and aligning curriculum with industry needs.

Ideastudio

Idea Studio Nepal is a leading social innovation platform. Through mentorship, incubation, and funding access, it empowers aspiring entrepreneurs to turn solutions into sustainable businesses. PCPS partners with Ideastudio Nepal to deliver hands-on training, mentorship, and 4 workshops that enhance creativity, innovation, and career readiness.

Our Collaboration

PCPS College partners with leading academic institutions and industry pioneers worldwide to foster innovation, enrich learning, and expand global opportunities for our students.

International Collaboration

AWS Student Certification Program

The AWS Student Certification Program is a global initiative by Amazon Web Services. Through the AWS Educate platform, students access self-paced training, hands-on labs, and certification vouchers for foundational and associate-level exams. PCPS supports this program to empower students with practical cloud expertise, enhance employability, and connect them to real-world tech opportunities.

ProgramsPro

ProgramsPro is a leading online learning platform offering expert-led courses in programming, software development, and technology skills. PCPS collaborates with ProgramsPro to provide students with access to quality tech education, hands-on projects, and career advancement resources.

Platform Partnership

PCPS College has established platform partnerships with Google and Microsoft, providing students with access to industry-leading tools, certifications, and cutting-edge learning resources to enhance their digital skills and career readiness. Our students can access different online resources and technologies to help them during their academic journey.

It aims to provide an expressive platform where students can develop and showcase their talents through performances, exhibitions, and collaborative art projects. Various sports, organize tournaments, and promote a healthy, active lifestyle

STUDENTS SUCCESS STORY

PCPS helped me to Launch Entrepreneur Journey along with Academics

PCPS College bridges the gap between theory and industry. Through practical marketing insights and a hands-on curriculum, I've been able to launch my entrepreneurial journey while still studying. I am graduating with more than a degree. I'm graduating with a business-ready mindset.

Adarsh Shakya
Founder, Bajra Gears

PCPS College taught me to learn; the corporate world taught me to Lead

Today, I am proud to be leading two growing ventures Lingo & Landscapes and Lingo Tech both born from the passion and discipline that PCPS helped shape in me. Every strategy I deploy, every team I build, and every client I serve carries a piece of what this college gave me. PCPS did not just prepare me for a career, it prepared me for impact.

Shishab Shrestha

Founder & CEO, Lingo and Landscapes · Lingo Tech

From Academic Foundations to Industry Impact

The journey at PCPS College was instrumental in shaping my professional identity. By offering a perfect mix of technical depth and practical exposure. The hands-on experience I gained through various college projects was the catalyst for my career. Today, working as an Associate Data Scientist at SecurityPal AI, I am proud to apply the high standards of excellence and technical expertise that were instilled in me during my time at college.

Shruti Gurung

Associate Data Scientist, SecurityPal AI

From Classroom Projects to Nepal's Digital Firsts

PCPS College provided the technical foundation that allowed me to contribute to some of Nepal's most innovative digital milestones. From developing the country's first digital lending platform powered by share-value collateral to building real-time, The project-based culture at PCPS gave me the analytical mindset to tackle complex, high-impact challenges. Today, I am proud to be at the forefront of Nepal's Fintech and Healthtech evolution, turning ambitious concepts into secure, scalable code.

Software Developer, Medipro Computers Pvt. Ltd

ALUMINI SUCCESS STORIES

More Than
400+
ALUMNI

A Journey of Growth and Self-Discovery

My time at PCPS College gave me a strong starting point and introduced me to the world of technology. Beyond the classroom, much of my learning came from trying, failing, and figuring things out on my own. This journey has shown me that growth comes from small, consistent efforts, and with the right mindset, you can create your own opportunities.

Prajyotsana Rani Das

Data Analyst, Cedar Gate Technologies

”

PCPS Helped Me Turn Knowledge Into Strategy

PCPS College has been the strongest foundation for my career. The internship opportunities I received from the very first year helped me gain industry-ready knowledge, which contributed significantly to my success even in a foreign country.

Bishwas Thapa Magar

Business Architecture Analyst, NSAA Securities Australia

“

From Classroom Concepts to Quality Code

PCPS College provided the perfect blend of theory and practical exposure that helped me discover my path in quality assurance. The supportive faculty and project-based learning shaped my analytical mindset. Now, as a QA Engineer at FoneInsure, I ensure digital products meet the highest standards before reaching users.

Simanta Tiwari

QA Engineer, Foneinsure

”

PCPS Helped Me Turn Learning Into Career Growth

I feel proud to be a part of PCPS College, where the learning pedagogy LTW system is not only practical but also perfectly aligned with today's industry demands. The hands-on approach and real-world focus have truly prepared me for professional success.

Sijan Tandukar

QA Engineer, Varosa Technology

“

What do Industry Professionals Say About PCPS Students?

Subhas Sapkota
CEO, Yeti Airlines

What stood out to me at PCPS was how balanced the students are between academic strength and real-world awareness, with a clear sense of discipline and enthusiasm

Binay Khadka
CEO, Trust Bridge Capital

PCPS students impressed me with their entrepreneurial mindset, curiosity, and ability to think beyond technology with strong technical grit.

Niraj Shakya
Tekkon's Head of People

PCPS College students carry a strong blend of confidence and curiosity. In my sessions on personal branding, they showed real engagement and a clear understanding of what today's industry expects from fresh graduates.

Swastima Khadka
Actress

PCPS College are perfect blend of liveliness and postivity, during college TVCs shoot I interacted with them and found them highly engaged and motivated. Its fun to be at PCPS College

Anupam Bhattarai
Director of Academic Innovation and Technology

PCPS college impressed me with how seriously students approach execution, especially through initiatives like Upstart that turn ideas into real entrepreneurial action. Through Upstart, I saw students confidently ideating, pitching, and building solutions

Sanjog Koirala
Founder and CEO
Ideapreneurnepal

During my session at PCPS College on finance and entrepreneurship, I saw students who were highly engaged, curious, and genuinely interested in understanding how real businesses are built and scaled.
